Company Profile

APR is a leading Australian designer and manufacturer of Wood Plastic Composite (WPC) products suited to a wide range of industries within both local and international markets.

The family owned business has invested significantly in research and development, integrating recycled and reclaimed plastics and wood using the latest technologies.

APR prides itself in delivering quality products for individual residential sales or larger industry projects such as Public Infrastructure, Parks and Gardens, Rail, Marine, and Transport.

APR manufactures to world standards and delivers solutions which are leading edge without compromise in quality, all at an affordable price. With the ability for clients to order to length, wastage is minimised; in keeping with APR's responsible approach to utilising resources efficiently.

With around the clock manufacturing capabilities, APR has the superior ability to fulfill customer requirements.

To find more about how clients are utilising APR's product range, please visit www.a-p-r.com.au.

Factory tours are available by prior arrangement for Government and business communities.

Nambucca Heads, New South Wales

Adelaide, South Australia

APR's eco-comp range of WPC decking products are manufactured utilising recycled and reclaimed materials. They will not rot, rust, splinter or leach chemicals into the environment – and with the option of adding an anti-slip coating, APR's decking products provide the perfect long term, eco-friendly solution for any application.

APR's eco-comp decking products include:

Access Ramps • Boardwalks • Bridges • Lookouts • Marina Decking • Pontoon Decking • Sand Ladders • Steps • Swale Bridges • Viewing Platforms • Walkways • Custom Made Designs

Plus, all APR products are custom designed, engineered and manufactured in Australia to your specific needs, which means you get exactly what you need with *no waste*. They are also easy to install and require very little maintenance, if any at all.
