

APR Decking Products

200 x 23 Double Groove

200 x 23 DG, APR Brown, Brushed Finish

200 x 23 DG, APR Graphite, Standard Finish

Features

APR's range of composite decking products provide the perfect long term, eco-friendly solution for a wide variety of applications. They are designed and manufactured in Australia utilising recycled and reclaimed materials and will not rot, rust, splinter or leach chemicals into the environment. They are also termite resistant, have a superior lifespan and are virtually maintenance free.

Primary Application

APR's 200 x 23 DG decking profile is ideal for residential environments where the typical usage is for pedestrian, mobility scooter and wheelchair access. The recommended span width for this profile is 350mm, but *please note*, a specific structural design is required for each individual project prior to ordering materials. For fixing locations, please see over.
