# Company Profile

APR Composites is a leading Australian designer and manufacturer of sustainable composite products suited to a wide range of industries within both local and international markets.

The family owned business has invested significantly in research and development, integrating recycled and reclaimed plastics and wood using the latest technologies.

APR Composites prides itself in delivering superior products for individual residential sales or larger industry projects such as Public Infrastructure, Parks and Gardens, Rail, Marine and Transport.

APR Composites manufacture to world standards and delivers solutions which are leading edge without compromise in quality, all at an affordable price. With the ability for clients to order to length, wastage is minimised; in keeping with APR Composites responsible approach to utilising resources efficiently.

With around-the-clock manufacturing capabilities, APR Composites has the superior ability to fulfill customer requirements.

To find more about how clients are utilising the APR Composites product range, please visit [aprcomposites.com.au](http://aprcomposites.com.au).

Factory tours are available by prior arrangement for Government and business communities.

Sideling Lookout, Tasmania

Nambucca Heads, New South Wales

Adelaide, South Australia

APR Composites range of decking products are manufactured utilising recycled and reclaimed materials. They will not rot, rust, splinter or leach chemicals into the environment – and with the option of adding a slip-resistant coating, our decking products provide the perfect long term, eco-friendly solution for any application.

APR Composites decking products include:

- Access Ramps
- Boardwalks
- Bridges
- Lookouts
- Marina Decking
- Pontoon Decking
- Sand Ladders
- Steps
- Swale Bridges
- Viewing Platforms
- Walkways
- Custom Made Designs

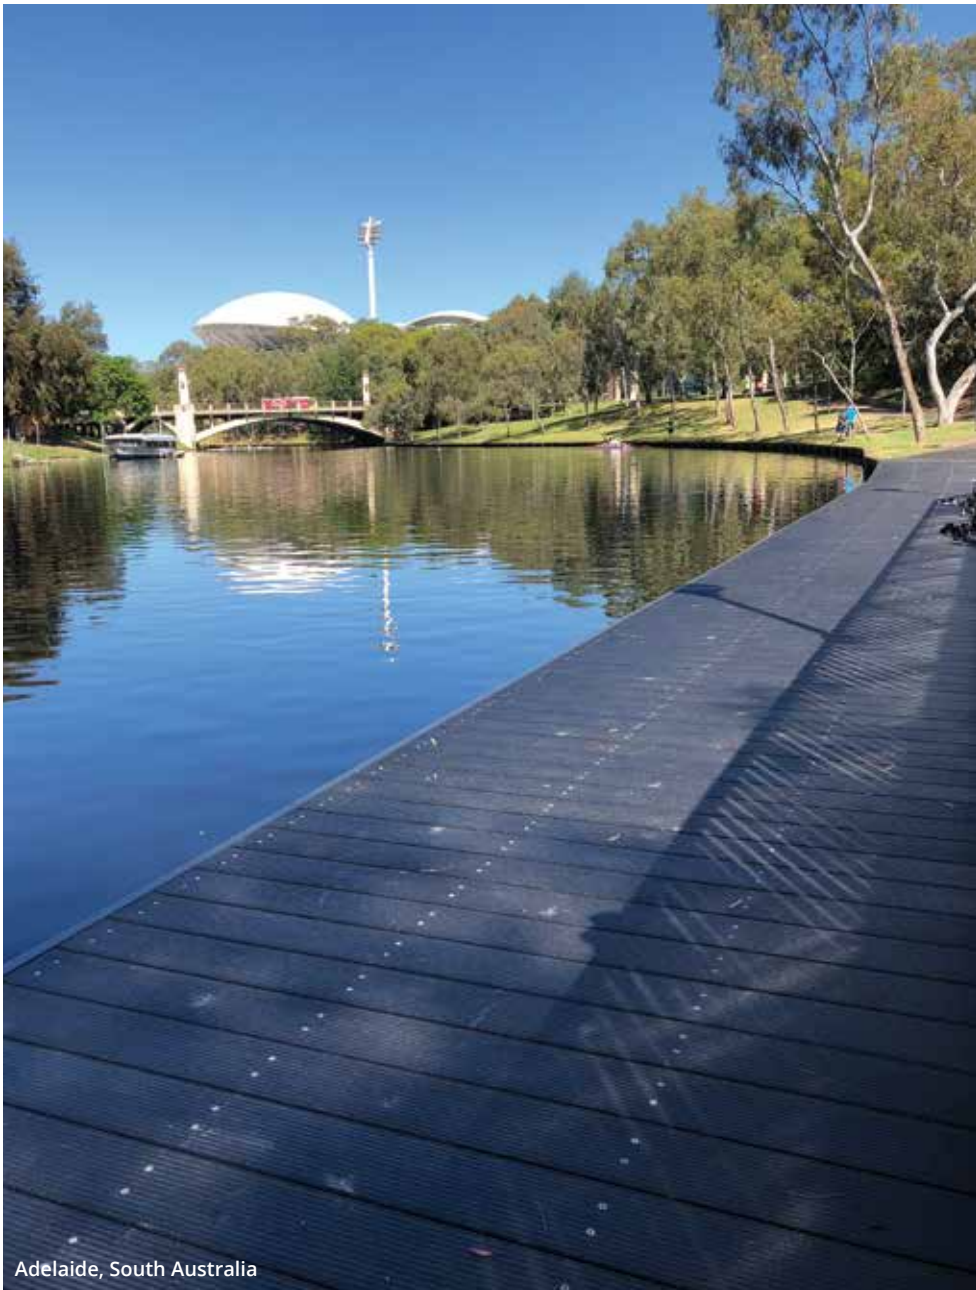

Our composite products are custom designed, engineered and manufactured in Australia to your specific needs, which means you get exactly what you need with *no waste*. They are also easy to install and require very little maintenance, if any at all.
