

APR Composites

Project in Review: Hallett Cove Boardwalk

DESCRIPTION

A new 128m boardwalk was built connecting the reserve to the Field River mouth. The project was part of the Marion Council Coastal Walkway upgrade and extension. APR Composites material was selected as the best option for exposed environments that require durable components for safe public use.

PROJECT SCOPE

APR Composites was used to build:

- Substructure (posts, joists, bracing, bearers)
- Decking

LOCATION

Heron Way Reserve, Hallett Cove, South Australia

CONSTRUCTION

Built by Blu-Built Constructions Pty Ltd |
Project completion December 2021

PROJECT FACTS

- ✓ **17,500 kg** of reclaimed non-treated timber consumed
- ✓ **17,500 kg** of recycled plastic consumed
- ✓ = **455,000** x 2 litre plastic milk bottles
- ✓ = **1200 m³** of plastic diverted from landfill

** Figures are approximate.*
